

HARSHITA SINGH

AI/ML Engineer Intern • Generative AI & NLP Systems
harshita753357@gmail.com | +91-80770 54854 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

B.Tech CSE (AI & ML) student with a strong foundation in statistics, linear algebra, and data structures. Hands-on experience building predictive models, NLP pipelines, and deep learning systems, with a drive to learn advanced neural network architectures from industry-leading scientists.

EDUCATION

B.Tech, Computer Science Engineering (AI & ML Specialization) — Dr. A.P.J. Abdul Kalam Technical University
2023 – 2027 | CGPA: 8.3/10
Senior Secondary (XII) & Secondary (X), CBSE — S G R M School, Bithri Chainpur, Bareilly, UP | 93.2% / 90.8%

TECHNICAL SKILLS

Languages: Python, C++, Java, SQL

ML / DL: TensorFlow, PyTorch, Scikit-Learn, Keras, XGBoost, GNNs, Classification, Regression, Recommender Systems

Core ML Concepts: Linear Regression, Logistic Regression, Decision Trees, Random Forests, Gradient Boosting, Neural Networks, CNNs, RNNs, Clustering, PCA, Hyperparameter Tuning, Model Evaluation

NLP: Transformers, Embeddings, NER, Text Classification, LLMs, RAG

Data & Analysis: Pandas, Polars, NumPy, Feature Engineering, EDA

Web & Backend: React, FastAPI, PostgreSQL, REST APIs

Cloud & Tools: AWS SageMaker, Docker, Git, Streamlit

RELEVANT COURSEWORK

Data Structures & Algorithms, Machine Learning, Deep Learning, Linear Algebra, Probability & Statistics, Inferential Statistics, Calculus, Multivariable Calculus, Database Management Systems

EXPERIENCE

AI/ML Intern — Saiket Systems June 2026 – July 2026

- Developed a Graph Neural Network (GNN) recommendation system using PyTorch Geometric, optimizing graph embeddings to improve product recommendation coverage by 15%.
- Built and deployed a Random Forest classification model to predict customer churn for a major Indian retailer, improving customer retention by 15%.

AI/ML Intern — SURE Trust May 2026 – Present

- Delivered 5+ mentor-validated mini-projects covering data pipeline design, EDA, feature engineering, and ML model development (regression, classification, clustering).
- Achieved a 90%+ mentor approval rate across project milestones by meeting industry-standard benchmarks for correctness, performance, and documentation.

PROJECTS

DiseaseDetectAI – AI Healthcare Diagnostic System [GitHub](#) | [Live](#)

Python | TensorFlow | PyTorch | CNN | XGBoost | Scikit-Learn | Streamlit

- Engineered a multi-model ensemble classification pipeline (CNN + Random Forest + XGBoost + Naive Bayes) for symptom-based disease and skin disease prediction, achieving ~95% accuracy; deployed an interactive Streamlit diagnostic interface and authored a paper accepted at ICETA 2026.
- Worked on disease datasets containing more than 700 diseases.

SmartHire AI – Intelligent Recruitment Automation [GitHub](#)

NLP | Transformers | Semantic Ranking | React | FastAPI | PostgreSQL

- Built an end-to-end AI recruitment pipeline with transformer-based resume parsing, semantic candidate ranking, automated skill-gap analysis, and learning roadmap generation; won 1st Place at HackGenitra 2025 (50+ teams) and reduced manual screening time by 60%.

Global Ocean Temperature Analytics – Climate Data Dashboard [GitHub](#) | [Live](#)

Python | Polars | Xarray | Plotly | Streamlit | NOAA ERSST v5

- Built an interactive climate analytics dashboard processing 33M+ ocean temperature records from NOAA ERSST v5, implementing temperature anomaly detection, decadal trend analysis, and ocean hotspot identification using Polars and Plotly.

ACHIEVEMENTS

- 1st Place, HackGenitra 2025 — outperformed 50+ teams with an NLP-driven AI recruitment automation system.
- Delivered 3 end-to-end AI/ML systems across healthcare diagnostics, HR recruitment automation, and climate data analytics.
- Solved 300+ Data Structures & Algorithms problems on LeetCode.

RESEARCH PUBLICATION

- “AI-Powered Healthcare Diagnostics via Deep Learning & Multi-Model Ensemble Methods” — Under Review, ICETA 2026 (International Conference on Emerging Technologies and Applications).
